Safe Delivery Kit

With the gift amount we can provide tools for a safe delivery including scissors to cut the umbilical cord, sterile gauze, and other medical tools that are essential for the survival of the mother and the child. 50 per cent of all maternal deaths occur during delivery or within hours after it, and 90 per cent of them occur in low-income countries. Most of these deaths are preventable. Professional help and the right tools ensure that the delivery is safe for both the mother and the baby.

Symbolic Gift
